Senior Full-Stack Software Engineer with 8+ years of experience building complex, user-facing systems end-to-end, from design through rollout.

Professional Experience

2023 – Present

Senior Software Engineer, Seesaw Learning

Platform Team — Seattle, WA (Remote)

- Owned end-to-end modernization of key product surfaces from legacy Jinja + AngularJS to React + TypeScript, designed navigation and UX flows, built the supporting RESTful Python APIs, extracted shared components, hooks, and utilities, improved page-load performance by up to 48%.
- Led internationalization (i18n) and right-to-left (RTL) language support across UI, emails, and PDFs: shipped 107 locales (including 4 RTL) with accessibility-first patterns, custom ESLint guardrails, Storybook docs, and robust unit + Cypress test coverage.

2018 – 2022

Software Engineer, Microsoft

Xbox Cloud Gaming (xCloud) — Redmond, WA

- Designed, implemented, and operated Azure microservices for OS update orchestration and server pool management across the fleet (150,000+ servers).
- Delivered fleet OS rollouts in <24 hours with no player-visible downtime via session-aware scheduling, percentage-based canary releases, health gates, retries, and automatic rollback.
- Primary on-call engineer for all services; improved rollout safety via health gates + auto-rollback, reducing failed deployments and incidents.

2016 – 2018

Software Engineer, Microsoft

Xbox Backwards Compatibility Infrastructure — Redmond, WA

- Joined a hand-picked team (~10) that delivered and demoed the first xCloud streaming proof of concept to Microsoft leadership, helping unlock funding to scale.
- Built launch-readiness tooling for backwards compatibility across hundreds of games, enabling QA/Engineering/PMs to coordinate fixes across CPU/GPU/Infra teams for the Xbox One X (Scorpio) launch.

2016 – 2016

Software Engineer Intern, Microsoft

Xbox Backwards Compatibility Infrastructure — Redmond, WA

- Built and shipped a production tool that enabled PMs to safely apply bulk pricing changes on Xbox.com for promos, with validation, logging, rollback, and documentation.

Education

M.S. Engineering Management

New Mexico Institute of Mining and Technology — Socorro, NM

M.S. Environmental Engineering

New Mexico Institute of Mining and Technology — Socorro, NM

B.S. Environmental Engineering

Middle East Technical University — Ankara, Turkey
